Rules

- *Decisions* (How will they be made? Majority, consensus, other?)
 - We will communicate with each other inside and outside of class to discuss changes of the coding. Both of us will need to agree in order to make changes to it.
- *Attendance* (What are your expectations for the frequency and type of attendance?; What are legitimate reasons for missing? What do missing members have to do to make up for missed meetings).
 - We will meet on agreed meeting times unless certain circumstances get in the way such as sickness, personal problems, etc. If a meeting is missed, then it will be rescheduled when both members are readily available.
- *Assignments* (How will assignments be made? How will the group deal with members who do not complete (or poorly complete assignments?).

- Each of us will work together to complete certain parts of the assignment by certain deadlines. If a deadline is missed we will try our best to complete it so that we do not fall behind.
- *Participation* (How will you communicate and share information; How will you ensure full participation of everyone? How will you honor member strengths and interests)?
 - We will communicate by text or in-person to share information that will be needed in the code. We will both contribute and see what best suits interest and strengths in this assignment so that we can better work efficiently.
- *Meeting Times and Locations/Mediums* (How will you decide on locations and times that suit all members)?
 - We will exchange contact information and will decide where the best place for us to meet will be at, it can be in person or via zoom.
- *Agenda and Minutes /Notes* (Who will take them, how will they be shared?)
 - Notes will be taken and shared by both of us and will share them when we feel is necessary
- *Promptness* (What do you expect and how will you handle lateness?)
 - We will send each other reminders to see how they are doing on their part, if any of us see that it will push us back then we will step in to help. If procrastination continues then we will discuss this with the TA's or Fayewolfe
- *Conversational Courtesies* (How will the team encourage and reinforce active listening, sharing of the airtime, tangents, respectful dialogue, etc)
 - We will check up on each other to see how we are doing. We will respect everyone's opinions and thoughts.
- *Enforcement/ Feedback* (How will the team enforce its own rules? How do individuals prefer to give and receive feedback?)
 - We will check each other to make sure that we are following the rules that we have created. The way we can give feedback to each other by suggesting other ways to code the assignment to make it less lines.
